

Short Message Service Centre 5.2 SMSC Delta training (Delta)

The Short Message Service Centre (SMSC) Delta Course provides participants with knowledge on the 5.2 release new features and how to technically implement the new features. Major part of the course focuses on hands-on so the participants are later able to implement and configure the discussed features on live systems.

- Sao Paulo, Brasil
- Plano, Texas, USA

Private courses can also be given at a customer site.

Class size

8 seats are available

Duration

1 to 3 days (9am–5pm, change on request)

Objectives

On completion of the course participants will have gained experience with new features allowing the participant to implement SMS related services and properly configure them.

Course schedule and registration

For more information or to enrol for a course, contact your Acision Project or Account Manager.

If you have any further training queries, contact the Product Training Department at training@acision.com

Intended audience

This course is intended for those involved in the implementation of new SMS services.

Prerequisites

It is required that participants have attended the SMSC Basic Operator Course. However, we advise that participants first bring to practise what they have learned in previous SMSC courses and return after a few months experience to follow the SMSC Delta course.

Location

The course can be given at our Acision Training Centres:

- Brno, The Czech Republic
- Kuala Lumpur, Malaysia
